This was my cousin, Faith Ann; I didn't know her well as an adult, but we played together when we were young. She taught me how to use distraction and humor. We would play tether-ball (remember that!?) and she would yell 'Green Diarrhea!' right before I would hit the ball. At that age, there was nothing funnier and I would laugh so hard I would miss. I'm sorry I didn't get to know her throughout life. My condolences to her family.

I'm afraid to say she was my partner in crime!!! She always had the greatest Ideas!!! Most of the time not very smart but she made them sound very enticing!!! I won't tell you all the trouble we got into, but I can tell you it was all worth it!!! Amazing Memories some I will NEVER tell my kids!!! She was my friend and team partner at girls camp, school, church, we swam every summer, went bowling together, played Racquet Ball, we even took a class on ceramics. She Always!!! Always!!! Had my back!! We all have our short comings and we've had our fair share!!! But Faith always had a heart of gold!!! I love you my friend!!! I will always love you!!! Save a place for us!!! Till we meet again.....
