“ Greg and I moved into the County high rise about the same time. We would pass and say our hello's. We got along great right from the get. We started out with matching leather baseball hat's. Greg kept to himself, but he always would be smiling or laughing and he was a jokester. When one of us would leave we came back with either Del Taco or Burger King. His favorite place to eat was Pizza and Pasta in Sugar House or Millies in Sugar House as well. I THANK him so much for taking my dog Shunka and I to VCA Veterinary. Especially on the day she had surgery to get the tumor removed. He was worried cause he had no headlights and it was getting darker and darker and Shunka hadn't recovered from the anesthesia yet. I told him let's just go she'll be ok. He felt really bad when they finally called and we could go pick her up now, and I'll be damned if I could find any one to take me after her. Finally someone picked me up and we went after her. There are a few more memories I will share later on. I'M REALLY GOING TO MISS YOU GREG, ESPECIALLY YOUR SMILE AND YOUR LAUGH. NOW you are reunited with your wife Tami. Until we talk again.....OUT
