Obituary for Marianne Goodman

9/16/39-1/4/14

Service Date: 1/7/14 10:30am

West Jordan, UT

Our feisty, fun-loving and giving mother Marianne Goodman, age 74, passed away peacefully after battling numerous health issues for the past few years.

Marianne is survived by her three children and their spouses, Felicia and Jeff, John and Rebecca and her youngest son Ray. She also had seven grandchildren who were her pride and joy: Dean, Lysette, Alyssa, Jordan, Tatum, Carter and Xanthe.

Marianne found her greatest joy in being a mother and grandmother. She loved having “grandma days” with her grandkids telling them stories about her youth and playing games. Though she loved family one of her least favorite things was to be married and therefore after divorcing her last husband swore off marriage (to her children’s relief) for the rest of her time on earth.

Having grown up in New York, she had a knack for meeting fellow New Yorkers and chatting them up everywhere she went. Her outgoing, irreverent sense of humor drew many towards her and she enjoyed socializing with others.

Growing up in New York into a wealthy extended family she was able to attend an exclusive all-girls private high school where she gave everyone a run for their money. She has always loved her home state of New York though the West has been her home since her children were little. Fortunately, she was able to return to New York on vacation with family in 2007 and enjoyed showing them all of her favorite places where she had youthful adventures.

Marianne was giving, sometimes to a fault. She would give the coat off her back to anyone that needed it and loved her last job in Social Services, helping disadvantaged adults train for employment. She retired from this job and has been happily playing with her cat and writing books, blogs, articles, her great novel and finally her life story-though no one would believe it to be true!

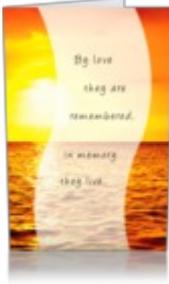

The family wishes to express our many thanks to the wonderfully caring staff at the Intermountain Medical Center’s Shock Trauma ICU. As well as to friends of the family that

have been so supportive and kind.
