“ Like everyone else, I have had my dear Pat on my mind. Heavy. I drove by Red Lobster the other day and remembered so vividly going to get crab with my gal pal. Can I just say NEVER go to crab with a Native American. Wow. She ate EVERY SINGLE speck of crab. We were there 2+ hours while she ate and slurped and dug and picked at the meat. hahahaha

I am blessed to have known Pat and even more blessed to have been loved by her. I know her insecurities, her laughter, her humor, her sad days and her spirit. I know how much she loves her family and how she treasured each of her children and grandchildren.

I love you, Pat.

“ I miss my sissy so much. She will always be a beautiful, caring, and special sister. She was there when ever I needed her.. She was a true friend... to so many... I would jus text 'hey'... to chat.

Whenever I'd visit she would tell me... 'Erin n I sat n watched you leave...' making me feel so sad to leave. I loved helping her with groceries, or treating her to lunch... as she would hardly eat, or clean out her car n put gas in for her. I loved doing little things for my sis ...soooo much.

Visiting her grave site seemed so lonely n far away, but so beautiful with the view of the mountains, which I knew she loved. She will always be my HERO. I miss her comical comments... so witty. She loved life.. her 'guys' (kids), and appreciated her friends.

I love and miss u dearly sis... think of u daily... u are my HERO. U impacted all our lives... I love u. <3.

“ All day today, at the funeral, I kept thinking Pat was going to walk around the corner and say "Hey Brit, you guys need gas money?" or "Hey Brit, you guys hungry?" or "Hey do you guys need anything?" That's how my mother- in- law was. She was always helping her kids. She would come over and shove money in my purse when I wasn't looking, or she would come over to the house to say Hi and go take us for ice cream with the kids. She knew Jake and I were working hard to make bills and feed the kids, she was always thinking about us, and she was always helping. She was always showing her love and support. She was always looking out for us. My favorite memories of her, are when she would come over to visit and stay late in the night talking to Jake and I about anything and everything. We loved her visits. We loved her wisdom. Love you Mom. Always.

“ My mother loved going to the movies and she enjoyed going with her kids. She worked at cinemark and would get free movie passes and sometimes give me a few so that I could have a date night with my wife and of course she would babysit my kids. Lol. She was a great grandmother that's how she spent time with her grandchildren. I love you mom. Alex and Kyowa will miss you.

“ While working at Ogden Fire Department and on the Fire Certification Council I came to know Pat as a great resource and eventually as a really great friend. She took care of so many things for so many people both as part of her job and as a friend who showed much caring and compassion when many of us most needed it. The services today were so reflective of her. She will be greatly missed

“ Pat and I shared some great conversations at the office. There were many Saturdays when the office was closed that Pat was working there off hours and I was working too. They were some good and quiet times for our chats. I met Pat so many years ago when I was a training officer and certification test proctor. Working with her all these years was great and I will miss her every time I don't see her at her desk.
