“ My heart goes out to the Roger's family. Tom and I are so saddened to hear of Sandy's passing. We have fond memories of the years we spent in the Lehi 6th Ward with Sandy and her family. She was always so upbeat and positive. I shall always remember her bright smile and friendly personality. It has been a pleasure to have been a part of her life.

We send the family our love and sincere sympathy.

Love,

“ Sandy was my seventh grade Utah Studies teacher. Although I only had her for half of the year, she made an impact on myself as well as the other students in my class. Each of us knew that she cared about us. She made learning fun. When she would crack a joke I remember her always saying "courtesy laugh!" She was an amazing teacher. My condolences go out to her family during this time.

“ Thank you Ashlee for your kind words. It's so good to know she made an impact as a teacher, she would have loved to hear that! (daughter- Deanna Nielson)

“ Sandy was not just a neighbor but a friend. She always had wonderful things to say about families and she treated ours as if it were her own. My kids loved her and she was a great example to them by sharing not only her love for temporal education but also her love for learning more about Our Heavenly Father. She was one of the most selfless people we had the pleasure of knowing.

“ I remember Sandy most for her dedication as a visiting teacher. She was amazing, stopping by my house while passing by, stopping by my work just to say hi. She was a very caring and compationate person. She always wanted a hug. She really was a dear friend with a big smile and love to share. I will truly miss her, but knowing she is on my side and continuing the work of the Lord somehow helps the sting of missing her being here with us. I pray peace, comfort and special memories will be with her family. Love you girlfriend!!!

“ What I love most about Sandy is her personal and child-like relationship to God. She always affectionately called Him, Father. I can imagine her prayers being more like conversations with a beloved parent. Sandy enjoyed being around people and sharing ideas. She was never shy about contributing to gospel discussions. Sandy would often say to me, "I feel that we knew each other in the pre-mortal life and that we were good friends." I concur. But I would also add that in this life I count her as one who I know and am friends with and my life was certainly better for it.

“ How do I choose one memory for Sandy? She has been part of my world since we moved here 16 years ago. She is the first person who greeted us at church and made us feel welcome. She has given me more hugs than I can count! I will miss her cheerful smile and squeeze on the arm just to say Hi and her encouraging words. She just made me feel better whenever we talked. She made a difference in Willow Park Ward and we will miss her!
