“ Taina, my sister-in-law, was the one when there was family function, I could almost count 99/100 she would be there. She was very orderly making sure her kids were fed and clean when they were with her and always said that my daughter took after her basketball skills! Hahahaha!! The comfort of knowing that she no longer is around does sadden me as well as my little family.... When were with her kids, it does provide a sense of comfort but know that we still miss her! Love you Taina- missed but never forgotten!
