“ Alyssa was always so kind and loving. She embraced me as a friend from the moment I met her. I loved spending time with her, and the opportunity I had to work with her as well. Watching her interact with our elderly patients and watching their faces glow, was a blessing. Alyssa was literally a ray of sunshine.

“ There is many memories that I have of Alyssa. All of them has me smiling or laughing. She had such a beautiful soul, she was a very wonderful person. Her heart could hold the whole world. Me and Alyssa weren't as close but we were friends. She came over one year for Halloween to help me and my dad scared little kids since he does a haunted house and she was amazing, she was in character! Another time is when we would go and swing at my husbands apartment complex and see how high we can swing , we'd be listening to music and laughing talking about drama that was going on at school. No matter what or where we were in life we had a connection that you could never forget and I thank you for that. You were so brave and kind. You've taught me a lot, here or not your spirit still lives inside every single person you've encountered. Thank you for showing me such a beautiful light in the world. Rest in Paradise honey.

“ *I really hit the jackpot when I married Jessica and got you as my little sister-in-law. It was such joy to watch you grow up and I love you so much. It breaks my heart to say good bye to you but I know someday I will see you again.*

“ *Alyssa was one of the best friends I've ever had. She was always laughing and had such a contagious smile. I remember all the football games we spent together running around being crazy kids. Every morning we would spend together waiting for class to start. The thing I will miss most is her hugs. Her hugs were sometimes the only thing that made the bad days better. I love you Alyssa. The world is going to miss your light.*

Lesla I remember having a conversation with you about your beautiful daughter when she was quite young. I noticed how she held her head high and smoothly walked around. You told me she had royal ancestors and she was naturally being herself. I thought how wonderful that was. You are in my prayers at this difficult time. I miss you and think of you when I round the bend where your family lived. Sending my love to you.💕
