“ *I hope one day the family will reach out the Daughter that Ms. LaFranier may not have talked about. She went up for adoption to a family not far. These last few year we have discovered the connection. Thank you.*

That would be my mother. So Mrs Dean was my grandmother by blood. I am so sorry to have missed out on knowing her.

I love to play golf too. Always wondered where I got that from. I'd love to talk to the family about genealogy and medical history. Darlene daughter that she gave up for adoption who is my mother, she also gave me up for adoption.
