“ *Donna was a great and loving women who always made you feel welcome and loved. I remember when my daughter Jamie was born and was in ICU, Donna came up to the hospital to see Jamie and I'll never forget the look of love that was coming from her face as she was holding her in her arms at first she was a little afraid to hold her because of all of the tubes and wires that Jamie had on her. I'm so glade that she was able to hold her so that Jamie could feel the love that her Grandma had for her. She was a very special women in our lives and I loved it when we would go over to visit and Alan always called her Momma it always touched my heart the love that Alan had for his Momma..*

Jeff and Roger the next year is going to be a hard one for the both of you. Remember you have the love and support of your family to help get you through the hard days. Talk about your mom often that will help ease some of the pain. Know that she is in a better place now and is closer than you might think she is happy and healthy now and with Becky, Alan and her parents and all of her relatives that had have passed on from this life. Remember we will all be together again one day.
