“ *Susie, I will forever be grateful for having you as a super fun loving mother figure in my life. You taught my sister and I so much about having fun and letting loose all while still holding the fort down (and keeping it extremely clean, of coarse). You gave us a 2nd view on life and with that I credit some of my open-mindedness to growing up with you and your kids. You always made life so fun when we were around. But, you were never afraid to tell us how you really felt or playfully tease us. I have so many memories and things that remind me of you (like Little Cesar's crazy bread). I will cherish those memories forever. Even though I will miss you, I am at peace knowing you are no longer in pain. Please protect Rosie at all cost and give her the comfort that she needs. Give your grandchildren and other children the comfort as well. And, lastly I hope you are enjoying your time with your sisters and parents up in heaven. Give Aunt Val a huge hug from me and she will give one to you from me. Love ya!*

“ Mom I know you loved me and your grandchildren unconditionally. You always made them feel special when they spent time with you. Luna loved seeing grandma at the hosable. You have left a huge void in our life. We will hold you in our hearts forever! I love you mom. You can rest now.

“ Love you mom I will miss our chats about the future and what you were looking forward too in life. Like having you move closer to us so it would be easier to visit you or you getting your new electric wheel chair. Knowing you are not in pain anymore helps me with the grieving process but it is still so hard too know your gone but I will see you again one day. Rest in peace mom love you!
